# CERTIFICATION

The Bureau of Budget and Management Research (BBMR) hereby certifies and approves the budget request herewith attached for the **CHIEF MEDICAL EXAMINER**.

BBMR further attests that all efforts were made in the review process to ensure the accuracy of the calculations and that the results indicated compliance with the budget ceiling established for this government entity from all fund sources.

The justification of this budget request is the responsibility of the government entity listed above and any submission outside of the certified submission is neither approved nor sanctioned by the Bureau of Budget and Management Research.

Department / Agency Narrative**

FUNCTION: PUBLIC SAFETY

AGENCY: OFFICE OF THE CHIEF MEDICAL EXAMINER

MISSION STATEMENTS:

The Chief Medical Examiner's Office shall conduct medico-legal investigations, autopsies, and toxicology analysis on all unnatural and unusual deaths, such as but limited to homicides, suicides, accidents, sudden unexpected deaths that occurred in a suspicious manner or caused by an unrecognizable disease. (Guam Code Annotated Title 10 Part 2 Division 4 Chapter 81, Public Law 11-37, Section 81104, 81105, 81106, & 81108.) It shall serve in criminal prosecution working closely with the Attorney General's Office, the Courts, Guam Police Department, and other law enforcement agencies to ensure public safety. It shall also serve in civil litigation cases; assist with insurance claims, concerned citizens, and family members who have legitimate interests as prescribed in the Post-Mortem Examination Act. (Guam Code Annotated Title 10 Part 2 Division 4 Chapter 81, Section 81107, 81109, 81110, & 81111.)

GOALS AND OBJECTIVES:

The CME's office primary goal and objective is to provide timely medico-legal death investigations, which would establish a true cause and manner of death for every case that falls under our jurisdiction. By conducting medico-legal investigations, our office can provide a death certification, autopsy and/or toxicology report(s) (varies case by case) to law enforcement investigators, the courts, Attorney General's Office, insurance companies, Consulate's Offices, and any individual authorized by the decedent's next of kin upon completion of the medico-legal investigation. By providing those documents, it can aid in criminal prosecution cases, civil litigation cases, insurance claims, etc. Another goal and objective is to increase educating the fundamentals of medico-legal death investigations to law enforcement authorities, college students, attorneys, jurors, middle & high school students, and the public through the use of statistical reports (differentiating the types of deaths), post-mortem observations (open and closed examinations on cadavers), student internship acceptance for students relating to the fields of forensics, law enforcement, medical, nursing, & etc., and conducting school presentations & lectures. In addition, consultations are also provided to promote health awareness amongst the families of those individuals dying from various illnesses.

**Decision Package  
FY 2011**

Department: Office of the Chief Medical Examiner      Division/Section: N/A

**Program Title:      OFFICE OF THE CHIEF MEDICAL EXAMINER**

**Activity Description:** *Organic Act of Guam, Guam Code Annotated Title 10, Part 2, Division 4, Chapter 81 Post-mortem Examination Act (by Public Law 11-37.)*

The CME's Office is a scientific death investigation system conducting medico-legal investigations, autopsies, and toxicology analysis on natural deaths and all unusual & unnatural deaths, such as but not limited to homicides, accidents, and suicides, sudden unexpected deaths occurring in a suspicious manner or caused by an unrecognizable disease, to establish the true cause and manner of death.

**Major Objective (s):** To provide timely medico-legal death investigations, that would establish a true cause and manner of death for every case which fall under our jurisdiction so it may aid in criminal prosecution cases, civil litigation cases, insurance claims, etc. To continue educating the fundamentals of medico-legal investigations and health & public safety to law enforcement authorities, college students, attorneys, jurors, middle & high school students, and the public. In addition, providing consultations to promote health awareness & prevention amongst the families of those individuals dying from various causes including non-communicable & communicable diseases so that the public as a whole continue to have a minimal outbreak of such diseases.

**Short-term Goals:** Our only current short-term goal is that it may be feasible to acquire additional funding to increase the Agency's staff from two to three which in turn will decrease the amount of workload for each staff. Otherwise, our goals are incomparable with other agencies within the government because of the uniqueness of the CME's Office where performance is governed in numbers by the immeasurable and unexpected events generally relating to misfortune. We strive to provide the quickest service possible without compromise in professionalism in medico-legal investigation and /or autopsies.

**Decision Package  
FY 2011**

<b>Workload Output</b>			
<b>Workload Indicator:</b>	<b>FY 2009 Level of Accomplishment</b>	<b>FY 2010 Anticipated Level</b>	<b>FY 2011 Proposed Request</b>
	Total Medico-legal death investigations conducted: <b>529</b> - Autopsy cases: <b>99</b> - Non-Autopsy cases: <b>429</b> - Presumptive Death Certificate Issued: <b>01</b>	Medico-legal death investigations to be conducted based on analyzing the previous 5 years; projects an estimated median of <b>463 cases.</b>	The CME's office proposes that an estimated median of <b>485</b> medico-legal death investigation cases will be conducted.

Anticipated workload is measured based only on average and historical data that are available since the inception of the CME's Office in 1977. The workload has shown a steady increase every year. As of February 3, 2010, our office has handled 48 death investigations. Out of the 48 cases, 13 of those required autopsies to be performed and laboratory services. For calendar year 2009, the CME's office investigated 529 deaths. 99 of those investigated, required autopsies to be performed and most if not all require submitting specimens to the Lab for further analysis and toxicology study. "*Certificate of Deaths*" for death cases coming within the medical examiner's jurisdiction for calendar year 2009 to date are ready for filing or have been filed and are readily available at the Office of Vital Statistics, Department of Public Health & Social Services.

All autopsy and non-autopsy reports for Calendar years 2008, 2009 to date are readily available at our Agency for law enforcement investigators, the attorney general's office, insurance companies, consulate offices, and legal next-of-kin with legitimate purpose and/or any individual authorized by the next-of-kin. Reports are used for court trial purpose (both the prosecution and defense attorneys), death benefit claims, and all other purposes deem legitimate by the Chief Medical Examiner and approved by the Attorney General of Guam. In addition, we also provide temporary notifications and certifications ("*Verification of Deaths*" & "*Non-Communicable Disease Certifications*") to assist in expediting death benefit claims and shipping of human remains out of Guam for all CME death investigation cases to family members, funeral homes, and numerous government of Guam agencies. Additional duties include CME's testimonies as an expert witness for Grand Jury Hearings, Murder Trials, and DUI (Driving Under the Influence) cases. We also continue to strive on educating the fundamentals of medico-legal death investigations to local law enforcement agencies, University of Guam, Guam Community College, Guam Medical Society, U. S. Naval Hospital, Guam, and local, federal, & private high & middle schools. This office has also been able to provide statistical reports for the sole purpose of educating students, teachers, parents, school faculty and staff, on the vast amounts of death relating to suicides, homicides, vehicular accidents, etc. Our Agency's level of accomplishments has been continuous since the start of our office. We continuously manage to provide "*Certification of Deaths*" to the Office of Vital Statistics, Department of Public Health & Social Services upon completion of the medico-legal investigation within a reasonable timeframe and limited resources and manpower.
